

Time Capsule project with Mid Kent College; January to March 2008

Contributed by Administrator

Mid Kent College commissioned Tina Lawlor Mottram, local artist and a member of the Friends of the Lower Lines, to work with children and young people in Mid Kent College, Skinner Street Primary school and New Brompton College.

Adam Price also helped out on the project, in which children worked on the Gillingham town crest in their individual styles for inclusion in a book, which was buried in the Time Capsule in March 2008. Several students in Skinner Street are active members of the FoAG group since the beginning. Max Hart took part in the burial ceremony on the day along with other children from both schools.
